ACSTM
American Cattle Systems

AN EPS SPECIALTY
PRODUCT LINE

CATTLE BUILDINGS

EPS has been a leading manufacturer of agricultural buildings since 1981.

- Engineered to IBC code
- Up to 100' wide clear spans
- Complete design flexibility
- Fully guaranteed engineered structure
- Cost-effective design

OUTDOOR FEEDLOTS

A complete range of outdoor feedlot construction—from layout to filling the feedlot.

- Excavation of lots and roads
- Fencing and waterers
- Several customers have utilized a paving machine and bunk attachments on select projects

*A single-source
for your project*

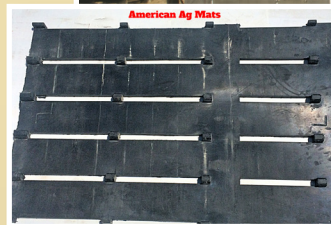

SYSTEMS

Technology: Estimating software is available for analyzing feedlot and cow flow.

Rubber mats: we are proud to introduce the American Ag Mat line of cattle mats for the beef and dairy producers.

Other materials including curtains, gates, and slats.*

Our company is focused on service to the growing livestock sector. Turn-key projects are available through our authorized EPS dealer network.

A Proven Track Record of Success!

*Mats, gates, and slats are provided by American Ag Mat
